

AI FOR EXCEL IN A WEEK

Build the Modern Excel AI Stack: Dataverse > Power Query > Copilot > Automate > Copilot Studio

SEATS FILLING FAST • COHORT CLOSES WHEN FULL • ENROLL NOW TO LOCK YOUR PRICE

Excel isn't just a spreadsheet anymore. It's your gateway to Microsoft AI.

In 5 focused lunch-hour sessions, you'll connect the modern Excel AI stack end-to-end — from governed cloud data to Copilot, Python, Power Automate, and custom Copilots — without a single line of unnecessary complexity. Stop emailing .xlsx files around. Start shipping repeatable, AI-powered analysis your team can trust.

YOUR 5-DAY TRANSFORMATION

- | | | |
|-------------|----------------------|---|
| • DAY 1 MON | FOUNDATION | Connect Excel to governed cloud data with Dataverse. End version chaos. |
| • DAY 2 TUE | PREPARATION | Build repeatable Power Query + Dataflow pipelines for reporting AND AI. |
| • DAY 3 WED | INTELLIGENCE | Unleash Copilot + Python in Excel for analysis formulas simply can't do. |
| • DAY 4 THU | EXECUTION | Automate the tedium with Office Scripts and Power Automate triggers. |
| • DAY 5 FRI | ORCHESTRATION | Design your own Copilot in Copilot Studio — an AI teammate for real work. |
